Linked in:[ThrinaadhVarmaGunje](#) | Github : [thrinaadhvarmagunje](#)

PROFESSIONAL SUMMARY

Software ,Machine Learning and Data Engineering enthusiast with hands-on experience in Python, ML, and Deep Learning. Skilled in data preprocessing, model development, and building scalable AI-driven solutions using industry-standard frameworks. Adept at collaborating with teams to deliver efficient and impactful applications.

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)

Rajiv Gandhi University of Knowledge Technologies(IIIT), Ongole

CGPA: 8.4 (current) | 2022–2026

Pre-University Course – RGUKT(IIIT), Ongole

CGPA: 9.4 | 2020–2022

Class X – Board of Secondary Education, Andhra Pradesh

Percentage: 100% | 2019–2020

TECHNICAL SKILLS

Languages : Python-Advance Level

HTML,CSS,SQL-Intermediate Level

C,Java-Basic level

Concepts : DSA with Python,Data Science with Python,Machine Learning with Python,Deep Learning with Python

Tools : MySQL,Flask, Streamlit,NumPy, Pandas, scikit-learn, TensorFlow, Keras, OpenCV, YOLO, Github

WORK EXPERIENCES

AI/ML Intern - NULL CLASS EDTECH PRIVATE LIMITED [Remote]

MAR 2025-MAY 2025

- Built an text to image generator model using Stable difussion

Artificial Intelligence & Machine Learning Intern – Edunet Foundation (In Collaboration with IBM skillsbuild and AICTE)

JUN 2025-AUG 2025

- Worked on AI/ML concepts and mini-projects using Python, NumPy, Pandas, scikit-learn
- Gained hands-on experience in model building and deployment basics.

AI /ML INTERN -INFOSYS SPRINGBOARD

AUG 2025-OCT 2025

- Designing andDevelopingan AI-basedpredictive maintenance system capable of estimating the Remaining UsefulLife (RUL) of industrial machinery using multivariate time-series sensor data.The system will be prototyped using the NASA CMAPSS dataset and structured to generalize across similar domains such as turbines, pumps, and motors.

PROJECTS

Movie Recommendation System

Built a recommendation engine based on content similarity between movies

TOOLS: Python , numpy , pandas , scikit-learn , cosine similarity

Live Drowsiness Detection of Drivers

Implemented a drowsiness detection system using YOLO for face and eye detection and EAR (Eye Aspect Ratio) for real-time fatigue monitoring.

TOOLS: CNN, numpy , Python

Text-to Image Generator

Built a Text-to-Image Generator using Stable Diffusion and Hugging Face, transforming natural language prompts into realistic images.

TOOLS:Python, PyTorch, Transformers, Diffusers Deep Learning, NLP, and Computer Vision techniques.

Rythu Mythri- A Farming Assistant App

Developed an AI-powered Smart Farming Assistant using Deep Learning and Streamlit for crop disease detection, pesticide recommendation, irrigation analysis, and yield prediction with multilingual voice alerts.

TOOLS:Python, TensorFlow/Keras, Streamlit, Scikit-learn, MobileNetV2, gTTS, NumPy, Pandas, Joblib.

CERTIFICATIONS

- Certification of publication-IRJAEH
- AI & ML Internship – AICTE–Edunet Foundation
- Artificial Intelligence & ML INTERN-Infosys SpringBoard
- Certificate of Participation-ICESM-2026
- Deep Learning course-NPTEL
